**NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION**

**FINDINGS:** The environmental analysis prepared for the proposed project indicated that the project will not result in any significant environmental impacts that cannot be mitigated. For this reason, the City of La Habra has determined that a Mitigated Negative Declaration is the appropriate CEQA document. The following findings may be made based on the analysis contained as part of the Initial Study’s preparation:

- The approval and subsequent implementation of the project *will not* have the potential to degrade the quality of the environment.
- The approval and subsequent implementation of the project *will not* have the potential to achieve short-term goals to the disadvantage of long-term environmental goals.
- The approval and subsequent implementation of the project *will not* have impacts that are individually limited, but cumulatively considerable, when considering planned or proposed development in the immediate vicinity.
- The approval and subsequent implementation of the project *will not* have environmental effects that will adversely affect humans, either directly or indirectly.
